OSZINGA ENERGY OPENS PUBLIC ACCESS
NATURAL GAS FUELING STATION NEAR O'HARE AIRPORT

DES PLAINES, IL. Oct 28, 2014 – Ozinga Energy proudly announces the grand opening of their latest compressed natural gas (CNG) fueling station located near Chicago's O'Hare International Airport.

A division of Mokena, Illinois-based Ozinga Bros., Inc., Ozinga Energy already operates two additional CNG stations in Mokena and Chicago, as well as one in Gary, Indiana.

The station includes multiple fill spaces for Ozinga's large fleet of CNG concrete mixers as well as two publicly accessible CNG fuel pumps with credit and fleet card readers. It is open 24 hours a day and is both covered and well-lit at night.

The grand opening ceremony began with a ribbon cutting by Des Plaines Alderman Mike Charewicz and was followed by remarks from Darwin Burkhart, member of the Illinois EPA and Chicago Area Clean Cities, Des Plaines Alderman Mark Walsten, and Ozinga president Marty Ozinga IV.

Burkhart and Walsten congratulated Ozinga on the stations opening, with Walsten noting that natural gas fueling is "the wave of the future."

Ozinga Energy plans to open additional CNG fueling stations at other Ozinga Ready Mix locations throughout the greater Chicago area.
